I am a FullStack developer with over 3 years of experience, with strong expertise in frontend development. I have worked on multiple large-scale projects, building efficient and user-friendly solutions using modern technologies. Currently, I am actively developing my backend skills, and thanks to my overall experience, I am able to quickly understand and effectively implement backend tasks. In addition, I am continuously improving my soft skills and developing my mentoring abilities.

Experience

Frontend Mentor / Instructor (Part-time)

Najot Ta'lim | Jun 2025 – Present

- Mentoring students in frontend development (theory + practical projects)
- Successfully graduated 4 groups (120+ students)
- Improved students' technical skills, problem-solving, and real-world readiness
- Developed strong communication, mentoring, and leadership skills

Frontend / FullStack Developer (strong junior/Middle)

TensorSoft | Aug 2025 – Mar 2026

- Contributed to large-scale, government-level and enterprise projects
- Focused on performance optimization, reducing API requests, and improving frontend efficiency

Key Projects:

[mycoal.uz](#): Nationwide coal distribution and reporting platform (~3M users)

- Improved dashboard statistics accuracy
- Worked with charts and data visualization
- Optimized frontend request flow and performance

[Digital Government Platform](#): Centralized system for administrative data management

[PlusMed](#): Platform connecting patients with doctors, enabling online appointment booking

Frontend Developer (Junior)

Result Agency | Dec 2024 – May 2025

- Worked on real-world production projects focusing on clean architecture and best practices
- Improved application performance and code quality
- Key Projects:
 - [interlab.uz](#): Platform for analyzing lab results and recommending doctors; widely used in Tashkent and other regions
- Developed multiple landing portfolio websites for medical professionals
- Focused on performance optimization and maintainable code structure

FullStack / Frontend Developer (Intern → Junior)

Modern Developer ([md.uz](#)) | Nov 2023 – Dec 2024

- Started as an intern and built strong foundational knowledge in frontend development
- Participated in both startup and real-world projects as a frontend developer
- Developed user-friendly interfaces and contributed to scalable web solutions

Key Projects:

- [Railway \(Telegram Bot + Dashboard\)](#): Built a system for managing and monitoring railway data via Telegram bot and admin dashboard
- [Railway-Ses](#): Platform for Uzbekistan Railways to monitor train cleanliness; handled high user feedback volume (1000+ daily reviews)
- [DachaOL](#): Platform for discovering recreation areas, hotels, and cottages across regions; competitive with local booking platforms
- Warehouse System (Irrigation University): Role-based system (10+ roles) with dynamic UI rendering based on user permissions

Hard Skills

Frontend: HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Responsive Design, Cross-browser compatibility, JavaScript (ES6+), TypeScript, React.js, Next.js, Vue.js, Nuxt.js, Redux Toolkit, RTK Query, Zustand, Vuex, Material UI (MUI), ShadCN UI, Ant Design, Axios, Fetch API, i18n, SEO (SSR/SSG), Formik / React Hook Form, Yup, Chart.js, Framer Motion, PWA, Web Performance Optimization (code splitting, lazy loading, memoization), Component-based architecture, Custom hooks, Error boundaries, Accessibility (a11y basics)

Backend: Node.js, Express.js, REST API development, MVC architecture, Layered architecture, JWT, NextAuth.js, Authentication & Authorization, Role-based access control (RBAC), Middleware, Validation (Joi / Zod), Error handling, File upload (Multer), API security best practices (Helmet, CORS, Rate limiting), Caching (Redis – basic), Logging (Winston / Morgan), Environment configuration (.env)

Soft Skills

Problem-solving, Communication, Project Management, Creativity, Leadership, Teamwork, Time management, Adaptability, Critical thinking, Attention to detail, Self-motivation, Continuous learning

Education

University: Tashkent University of Information Technologies (TUIT)

Larning centet: Najot ta'lim

Online course: Coursera && Udemy

Certifications [All](#)

Meta: [Meta Front-End Developer](#) | Coursera (META) | 2025

Udemy: The Complete [JavaScript](#) Course: From zero to Expert! | Udemy | 2024

Languages

Uzbek (native)

English (elementary)

Russian (novice)
